■ University ■ Apprentcieship ■ Employment ■ Gap Year ■ NEET
	Number	Percentage
University	104	75.4
Apprenticeship	5	3.6
Employment	7	5.1
Gap Year	20	14.5
NEET	2	1.4
Total Number of students	138	100

Observations from 2024 results and destinations

- More students are choosing to re-sit exams, all are students who had applied and still hope to go to university.
- All Gap year students are working either part time, full time or in a volunteering role.
- More clearing places were available for those who narrowly missed out on grades, particularly in healthcare courses.
- Universities wanted to interview for clearing courses, rather than giving immediate offers.
- All apprenticeships have been found after results day, students did not receive apprenticeship offers before results day (although most had not applied).
- SEND and disadvantaged destination data is excellent.

University Courses

Below are the most popular university areas of study.

Areas of Study - Y13 Leavers 2024

■ Number of Students ■ Male ■ Female
