### **Do you offer Language A levels?**

Yes, we have a very successful Modern Foreign Language department and you can choose from A level French, German and Spanish.

### **What vocational courses do you offer?**

We offer a number of non-A level courses including Business (OCR Technical qualification), Criminology (WJEC Diploma), Hairdressing (VTCT Level 2 Certificate), Health and Social Care (BTEC Single Award/BTEC Double Award) and Information Technology (OCR Technical Introductory Diploma).

We are very proud that Allerton Grange is currently ranked 1st for Applied Level 3 subjects out of 68 post-16 providers in Leeds (February 2020), acknowledging the progress and achievements of our students.

**What are the entry requirements to study at Allerton Grange Sixth Form?**

Students are required to have a minimum of 5 GCSE subjects at grade 4 (or above). Subjects also have additional specific requirements. Please refer to the Curriculum booklet for more detailed information for specific subjects.

**How do you support more academically able students?**

To make the most of all the opportunities presented to them throughout their time at Allerton Grange School, our most-able students are assigned a staff mentor to challenge, coach and encourage them to be the best they can be. They meet at least once every half term to ensure they are making the most of all the wider enrichment opportunities available to them. It gives each student the opportunity to raise any concerns or problems they have with their mentor, and for the mentor to be a bridge between them and their teachers.

Our Aim High programme identifies our most academically able year 11 and sixth form students and encourages them to consider applying to the most competitive universities and courses. In particular, we support those who may be disadvantaged or the first in their family to go to university.

There is support for those applying to universities such as Oxford and Cambridge and the Russell Group Universities, as well as to competitive courses such as medicine, veterinary sciences and dentistry.
